## **DETAILED ACTION**

### ***Response to Amendment***

1. The reply filed on 4-21-2005 is not fully responsive to the prior Office Action because it does not constitute a proper response to the restriction requirement mailed in the previous Office Action.

The Applicant's asserts that newly presented claims 8-15 are directed towards the same invention as originally presented claims 1-7 stating: "The Examiner's position is incorrect because the specification discloses an example, non-limiting embodiment of a single invention (and not two separate inventions) to which originally presented claims 1-7 and newly added claims 8-15 are directed." The Examiner counters by noting that the newly presented claims 8-15 are written so as to define a new invention and the fact that only a single embodiment of the disclosed invention is taught in the specification does not alter this fact.

The Applicant states: "Furthermore, Applicants agree with the Examiner that new independent claim 8 "does not read on" original independent claim 1. But this is simply not pertinent. Otherwise, any amendment (e.g., a change in terminology) would result in a constructive election." The Applicant then, is stating that he agrees with the Examiner that claims 1 and 8 are directed to different inventions since the standard term of art "reads on," indicates as much. The Applicant's additional statement that a mere change in terminology cannot result in a claim becoming directed towards a new invention is simply incorrect.

Since the period for reply set forth in the prior Office action has expired,

Art Unit: 2137

this application will become abandoned unless applicant corrects the deficiency and obtains an extension of time under 37 CFR 1.136(a).

The date on which the petition under 37 CFR 1.136(a) and the appropriate extension fee have been filed is the date for purposes of determining the period of extension and the corresponding amount of the fee. In no case may an applicant reply outside the SIX (6) MONTH statutory period or obtain an extension for more than FIVE (5) MONTHS beyond the date for reply set forth in an Office action. A fully responsive reply must be timely filed to avoid abandonment of this application.
